April 12, 2010

Dear Resident, Business and Property Owner:

By this notification, the City of Glendale would like to inform you of the major construction activities that will be taking place over the next few weeks in connection with the Fairmont Avenue Extension project. These construction activities will have impacts on the traffic operations within San Fernando Road and Fairmont Avenue, and in turn on the nearby streets in the project area. Below is a listing of the upcoming major construction activities and their respective traffic impacts.

Falsework Removals over the Railroad Tracks

Construction Period:

April 16, 2010 through April 26, 2010.

Construction Activity:

The removal of the falsework system (temporary support structures for the construction of the bridge deck) over the railroad tracks is scheduled to be conducted during night hours. Up to four separate nights may be necessary to conduct this work. Below is the schedule for the removal of the falsework.

- Starting on Friday April 16, 2010 at 9:30 p.m. and ending at 7:00 a.m. on Saturday April 17, 2010
- Starting on Sunday April 18, 2010 at 9:30 p.m. and ending at 5:00 a.m. on Monday April 19, 2010
- Starting on Friday April 23, 2010 at 9:30 p.m. and ending at 7:00 a.m. on Saturday April 24, 2010
- Starting on Sunday April 25, 2010 at 9:30 p.m. and ending at 5:00 a.m. on Monday April 26, 2010

Every effort will be made to reduce the number of night-time construction activities.

Traffic Impacts:

The removal of the falsework system over the railroad tracks will require partial closure of the traffic lanes on San Fernando Road, between Doran Street and Fairmont Avenue - this is for the safety of the traveling public and the construction crew.

Traffic detours will be provided to maintain through traffic on the nearby streets/arterials and provide access to State Route 134 freeway ramps and local streets.

It is important to note that during the above falsework removal operation, there will not be any commuter train or freight train operating on the railroad tracks.

Widening of San Fernando Road between Doran Street and Fairmont Avenue, and widening of Doran Street at the Northeast Corner of the Intersection of San Fernando Road and Doran Street

April 8, 2010 through April 30, 2010

Construction Activity:

The construction contractor will be widening San Fernando Road, between Doran Street and Fairmont Avenue, on the east side of the street, and Doran Street on the north side of the street at the intersection of Doran Street and San Fernando Road.

Traffic Impacts:

There will be partial traffic lane closures during this construction activity. Traffic detours will be provided to maintain through traffic on the nearby streets/arterials and provide access to State Route 134 freeway ramps and local streets.

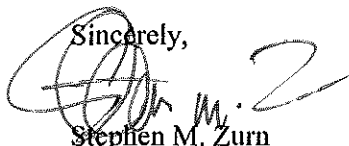

City Contacts:

The Public Works Department is mindful of the public inconveniences during the above construction activities, and will be monitoring the construction activities to address and minimize the related traffic impacts as much as possible. Traffic detours will be provided to maintain through traffic on major streets/arterials.

We would appreciate your comments and would like to take this opportunity to thank you in advance for your patience and understanding for the inconveniences during the construction period.

If you have any questions or concerns, please call Steven Lujan, Public Works Community Outreach Assistant at 818.548.3986 or email slujan@ci.glendale.ca.us.

Sincerely,

Stephen M. Zurn
Director of Public Works
